## FAQs – The Pass Machine Family Medicine Board Review

### Is The Pass Machine different from other board reviews?

Yes, in three main ways:

1. The Pass Machine board review is the most comprehensive option. More than just a Question Bank of practice questions, each course includes in-depth lectures in a familiar classroom setting presented by expert faculty. This means you get a topic-by-topic review of exactly what's on the board exam in much greater detail than what you can get from QBank answer explanations.
2. Because the physician's schedule is typically a hectic one, The Pass Machine is optimized for on-the-go review. Components such as the audio-only lecture option, iOS and Android app for mobile review, and offline access capability, and a fully illustrated board-mapped study guide make The Pass Machine review easy to incorporate at any point your daily routine.
3. The Triple Trust Guarantee not only gives you a full tuition refund if you don't pass the exam the first time after taking the course, but it also gives you an extra 10% and free subscription renewal. This unprecedented guarantee serves to assure you of the confidence we have that The Pass Machine content is exceptional.

### Who produces The Pass Machine Courses? Where do you get your faculty?

The Pass Machine board review courses are produced by American Physician Institute for Advanced Professional Studies, LLC (API). API conducts dozens of courses and trains thousands of physicians each year to pass their boards and stay up to date in their fields. Every single one of American Physician Institute's educational courses has full editorial independence, is free of pharmaceutical and industry sponsorship and is backed by an unbeatable guarantee. Because of its reputation for excellence, American Physician Institute is able to enlist many of the top faculty from the best universities, teaching hospitals and research facilities in the country to provide you with Category 1 CME educational activities.
